

[2022...it's a WRAP*](#)

As another productive work year draws to a close for Team UP, we can celebrate the holidays knowing we've helped many people overcome disaster recovery and insurance challenges in 2022 and been an effective champion for consumers on many fronts. Through our work with elected officials and in courts, we've helped get new consumer protection laws passed and fought hard to defend and enforce existing ones. And through our [*WRAP](#) initiative and national collaboration with insurance regulators and risk reduction experts, we're helping people and communities be more resilient to extreme weather events and earn premium discounts for fortifying homes.

To all our volunteers, donors, sponsors and friends, we thank you for your support and engagement and wish you a happy and healthy new year!

Roadmap to Recovery^(R)

After losing her Louisville, Colorado home in the 2021 Marshall Fire and using our Roadmap to Recovery services, Lisa Hughes (center) joined [Team UP](#) and became UP's liaison to her community. This month she broke ground on her new home. Congratulations, Lisa!

UP hosted over 50 [Roadmap to Recovery events](#) this past year for disaster-impacted households in CA, CO, FL & OR including in person and online seminars, pro bono financial and insurance legal help clinics, Q&A forums, and Survivor to Survivor emotional support forums.

"Thank you for last night's 'Navigating Your Dwelling Claim' webinar...We'd just received the insurance company's 99 page estimate and I was making myself sick determining next steps. UP provided such pertinent information - what timing! I cannot tell you how relieved I feel now having a path forward. Heartfelt thanks for all you do."

Roadmap to Preparedness

UP volunteer Rick Pero at the launch of the Institute for Business and Home Safety's "Wildfire Prepared Home" insurance discount program in his hometown, Paradise, CA.

Through our presentations, publications and advocacy work, UP is helping homeowners deal with [reduced coverage options](#), [increasing premiums](#), and [turbulence](#) in the insurance ecosystem. In addition to hosting over 50 preparedness and resiliency presentations this year, we are working hard to get insurers to give mitigation [discounts](#) in Western states.

"UP has been enormously helpful in navigating the insurance roadmap and surviving this painful loss."

Advocacy and Action

In 2022, UP continued to work closely with Federal and State public officials and agencies, legislators and insurance regulators to problem-solve for consumers and strengthen existing protections. [UP presented by invitation before the U.S. Congress, the CA, CO and OR legislatures](#) and [insurance regulators](#).

UP's expertise was referenced over 90 times in the [media](#) including articles in the NY Times and the Wall Street Journal and [radio](#) and TV broadcasts on ABC, CBS and [Fox News](#). With help from our powerful network of expert policyholder [attorney volunteers](#), we filed [36 Amicus "friend of the court" briefs this past year](#) and contributed to numerous pro-policyholder outcomes and legal precedents. In addition to fighting to uphold the reasonable expectations of insureds, we exposed anti-consumer changes in the products insurers are selling and [how they're currently handling claims](#).

***"When it comes to advising families we serve on who they can trust when it comes to insurance advocacy, there is only one partner we trust that will care as much as we do. That partner is United Policyholders!
