

Fire Safe Council gathering data on homeowner's insurance - Take the survey

YubaNet

NEVADA CITY, Calif. March 15, 2017 - The Fire Safe Council of Nevada County (FSCNC) is participating in the State's Tree Mortality Task Force. Our local group is looking to gather data to make a case that insurance companies are not following state law when not renewing policies for lack of defensible space. "The California Department of Insurance says they haven't received complaints about non-renewal notices from insurance companies or the lack of options in the market for new policies," said Joanne Drummond, FSCNC's Executive Director. "I told them I hear it every day." Working with United Policyholders, a consumer advocacy group, FSCNC is encouraging everybody to take this survey www.uphelp.org/survey The survey data is confidential. The Task Force subgroup is also working with other counties - Mariposa, El Dorado, Placer, etc. - to send out this survey to gather data to demonstrate there is a problem in high wildfire hazard areas.

The information presented in this publication is for general informational purposes and is not a substitute for legal advice. If you have a specific legal issue or problem, United Policyholders recommends that you consult with an attorney. Guidance on hiring professional help can be found in the "Find Help" section of www.uphelp.org. United Policyholders does not sell insurance or certify, endorse or warrant any of the insurance products, vendors, or professionals identified on our website.
