Executive Order 2020-32

April 30, 2020

Executive Order 2020-32

EXECUTIVE ORDER 2020-32 **(COVID-19 EXECUTIVE ORDER NO. 30)**

WHEREAS, protecting the health and safety of Illinoisans is among the most important functions of State government; and,

WHEREAS, it is critical that Illinoisans who become sick are able to be treated by medical professionals, including when a hospital bed, emergency room bed, or ventilator is needed; and,

WHEREAS, it is also critical that the State's health care and first responder workforce has adequate personal protective equipment (PPE) to safely treat patients, respond to public health disasters, and prevent the spread of communicable diseases; and,

WHEREAS, Coronavirus Disease 2019 (COVID-19) is a novel severe acute respiratory illness that has spread among people through respiratory transmissions, the World Health Organization declared COVID-19 a Public Health Emergency of International Concern on January 30, 2020, and the United States Secretary of Health and Human Services declared that COVID-19 presents a public health emergency on January 27, 2020; and,

WHEREAS, on March 11, 2020, the World Health Organization characterized the COVID-19 outbreak as a pandemic, and has reported more than 3 million confirmed cases of COVID-19 and 200,000 deaths attributable to COVID-19 globally as of April 30, 2020; and,

WHEREAS, a vaccine or treatment is not currently available for COVID-19 and, on April 24, 2020, the World Health Organization warned that there is currently no evidence that people who have recovered from COVID-19 and have antibodies are protected from a second infection; and,

WHEREAS, despite efforts to contain COVID-19, the World Health Organization and the federal Centers for Disease Control and Prevention (CDC) indicated that the virus was expected to continue spreading and it has, in fact, continued to spread rapidly, resulting in the need for federal and State governments to take significant steps; and,

WHEREAS, the CDC currently recommends that all United States residents take precautions to contain the spread of COVID-19, including that they: (1) stay home as much as possible; (2) if they must leave their home, practice social distancing by maintaining 6 feet of distance from others and avoiding all gatherings; (3) wear cloth face coverings in public settings where other social distancing measures are difficult to maintain; (4) be alert for symptoms such as fever, cough, or shortness of breath, and take their temperature if symptoms develop; and (5) exercise appropriate hygiene, including proper hand-washing; and,

WHEREAS, the CDC also recommends the following precautions for household members, caretakers and other persons having close contact with a person with symptomatic COVID-19, during the period from 48 hours before onset of symptoms until the symptomatic person meets the criteria for discontinuing home isolation: (1) stay home until 14 days after last exposure and maintain social distance (at least 6 feet) from others at all times; (2) self-monitor for symptoms, including checking their temperature twice a day and watching for fever, cough, or shortness of breath; and (3) avoid contact with people at higher risk for severe illness (unless they live in the same home and had the same exposure); and,

WHEREAS, as circumstances surrounding COVID-19 rapidly evolve, there have been frequent changes in information and guidance from public health officials as a result of emerging evidence; and,

WHEREAS, as of April 30, 2020, there have been nearly 53,000 confirmed cases of COVID-19 in 97 Illinois counties and 2,350 deaths from COVID-19; and,

WHEREAS, studies suggest that for every confirmed case there are many more unknown cases, some of which are asymptomatic individuals, meaning that individuals can pass the virus to others without knowing; and,

WHEREAS, as the virus has progressed through Illinois, the crisis facing the State has developed and now requires an evolving response to ensure hospitals, health care professionals and first responders are able to meet the health care needs of all Illinoisans and in a manner consistent with CDC guidance that continues to be updated; and,

WHEREAS, Illinois is using a high percentage of hospital beds, ICU beds, and ventilators as a result of the number of COVID-19 patients that require hospitalization and, if cases were to surge higher, the State would face a shortage of these critical health care resources; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds with 3,631 ICU beds, of which, as of April 30, 2020, only 33% of hospital beds and 25% of ICU beds were available statewide, and only 17% of ICU beds were available in the Chicago region; and,

WHEREAS, the State worked with top researchers from the University of Illinois at Urbana-Champaign, the Northwestern School of Medicine, the University of Chicago, the Chicago and Illinois Departments of Public Health, along with McKinsey and Mier Consulting Group, and Civis

Analytics, to analyze two months' worth of daily data on COVID-19 deaths and ICU usage and model potential outcomes; and,

WHEREAS, the State's modeling shows that its health care resource utilization will not peak until May, and that health care resources will continue to be limited after the peak; and,

WHEREAS, the State's modeling shows that without extensive social distancing and other precautions, the State will not have sufficient hospital beds, ICU beds or ventilators; and,

WHEREAS, Illinois currently has a total of 32,010 hospital beds, and the State's modeling shows that without a "stay at home" order, more than 100,000 hospital beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,631 ICU beds, and the State's modeling shows that without a "stay at home" order, more than 25,000 ICU beds would be necessary; and,

WHEREAS, Illinois currently has a total of 3,378 ventilators, and the State's modeling shows that without a "stay at home" order, upwards of 20,000 ventilators would be necessary; and,

WHEREAS, the State's modeling shows that without a "stay at home" order, the number of deaths from COVID-19 would be between 10 to 20 times higher than with a "stay at home" order in place; and,

WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances in Illinois surrounding the spread of COVID-19 constitute an epidemic and a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, I declared all counties in the State of Illinois as a disaster area on April 30, 2020 because the current circumstances surrounding the threatened shortages of hospital beds, ICU beds, ventilators, and PPE, and critical need for increased COVID-19 testing capacity constitute a public health emergency under Section 4 of the Illinois Emergency Management Agency Act; and,

WHEREAS, the Illinois Constitution, in Article V, Section 8, provides that "the Governor shall have the supreme executive power, and shall be responsible for the faithful execution of the laws," and states, in the Preamble, that a central purpose of the Illinois Constitution is "provide for the health, safety, and welfare of the people;" and,

WHEREAS, for the preservation of public health and safety throughout the entire State of Illinois, and to ensure that our healthcare delivery system is capable of serving those who are sick, I find it necessary to take measures consistent with public health guidance to slow and stop the spread of COVID-19 and to prevent shortages of hospital beds, ICU beds, ventilators, and PPE and to increase COVID-19 testing capacity;

THEREFORE, by the powers vested in me as the Governor of the State of Illinois, pursuant to the Illinois Constitution and Sections 7(1), 7(2), 7(3), 7(8), 7(9), and 7(12) of the Illinois Emergency Management Agency Act, 20 ILCS 3305, and consistent with the powers in public health laws, I hereby order the following, effective May 1, 2020:
